**Web & Tools:** HTML5, CSS3, React.js / Next.js, Tailwind CSS, REST API integration, DevTools, GitHub, Redux  
**Practices:** Component-based development, Clean Code & SOLID basics, Agile, basic continuous integration  
**Languages:** English (B1), Ukrainian (Native), Russian (Native).

## EXPERIENCE

**MIRIAM+** **REMOTE**

**Full-stack Developer** Aug 2025 – Sep 2025

- Built production-ready e-commerce web platform using Next.js, React, TypeScript, Tailwind
- Developed core features: product catalog, feedback forms, email notifications, admin dashboard
- Integrated REST API endpoints and implemented secure authentication workflow
- Reduced manual order management through admin tools and automated email handling
- Delivered fully responsive UI with adaptive layout for desktop and mobile

**MIRIAM+** Bila Tserkva

**Online Manager** Jun 2024 – Jan 2025

- Managed customer communication and order tracking via CRM
- Processed incoming requests and ensured timely response and delivery coordination
- Maintained product database and supported documentation flow

## TECHNICAL PROJECTS

**E-COMMERCE FURNITURE STORE** Remote

**Next.js, React, TypeScript, Tailwind CSS, REST API, Redux, TanStack** Aug 2025 – Sep 2025

- Developed full e-commerce platform for custom furniture business with product catalog, admin panel, and feedback system
- Integrated REST APIs for product management, email distribution, and form submissions
- Implemented authentication and admin dashboard for order and content management
- Delivered responsive UI and performance-optimized frontend for desktop and mobile
- Deployed production-ready version with modern frontend architecture and reusable components

**PERSONAL PORTFOLIO WEBSITE** Remote

**Next.js, React, TypeScript, Tailwind CSS, Vercel, Redux, Motion** 2024

- Designed and developed personal portfolio website to present skills, experience, and projects
- Implemented animations, interactive UI elements, and responsive layout for all screen sizes
- Integrated GitHub/LinkedIn/Projects routing, improving personal discoverability
- Optimized Lighthouse performance for SEO, accessibility and loading speed

**WEATHER FORECAST DASHBOARD** Remote

**Next.js, React, TypeScript, Tailwind CSS, Vercel, Redux, Motion** 2025

- Developed weather dashboard consuming public API with live temperature, wind, humidity
- Implemented geo-search, daily and weekly forecast cards
- Focused on clean UI, accessibility and API error-handling
